INTERNATIONAL ACADEMY OF INDEPENDENT MEDICAL EVALUATORS

Annual Scientific Session

JANUARY 15-17
2021

VIRTUAL

Evaluating Validity in IMEs

This two and a half-day course will help you to effectively evaluate the validity of an examinee's performance on relevant measures, assess the credibility of their presentation and history, and draw reliable and valid conclusions that answer the key questions posed.

Those who attend this course can expect to walk away with a current, evidence-based understanding of symptom and performance validity as it impacts impairment evaluations.

In this 100% virtual course a broad range of topics centered on validity analysis in physical and psychological independent evaluations will be presented via lecture, panel discussion, and audience Q&A.

Attend live to have a chance to interact with presenters and your colleagues on these important topics or view recorded sessions* to absorb the information on your own schedule.

*Recorded sessions will be available for 60 days following the conference

THIS COURSE IS DESIGNED FOR Physicians, Chiropractors, Case Managers, Claims Representatives, Psychologists, Allied Health Professionals including Physical Therapists, Occupational Health Nurses and Legal Insurance or Risk Management Professionals.

Visit the IAIME website at www.iaime.org for additional information on Membership/Fellowship, additional courses, or other products and services offered.
